

Important COVID-19 Update

As friends of the **Las Positas College Foundation**, we are eternally grateful for your on-going support of student success at Las Positas College. We consider you to be part of our campus community and it's important that you have the most up-to-date information regarding Foundation operations.

On March 16th, six Bay Area county health officers announced a three week shelter-in-place restriction for residents as a response to the on-going COVID-19 challenge. With the exception of specific departments providing critical essential services, Chabot-Las Positas district and college offices will be closed until April 7, 2020 (11:59pm) in compliance with the order from the Alameda County Health Officer.

The LPC Foundation Office will remain accessible by email and via our website at: www.lpcfoundation.org. Where possible, Foundation staff will continue to provide limited services and respond to questions as best we can during the temporary campus closure. Foundation Executive Director, Kenneth Cooper, can be reached at: kcooper@laspositascollege.edu. Senior Administrative Assistant, Rifka Several, can be reached at: rseveral@laspositascollege.edu.

Chabot-Las Positas Community College District updates and alerts can be found at: <http://districtazure.clpccd.org/urgentalerts/>.
